

What you agree on the call **gets signed.**

THE PROBLEM

Freelancers close deals by word of mouth. And words get lost.

Scope creep

“While you're at it, could you also...?” With no written scope, every extra ask looks included.

Late payments

Without signed dates and amounts, getting paid depends on the client's memory.

“I never said that”

When a dispute comes up, the only evidence is what each side remembers from the call.

Writing a contract after every call takes hours. So it gets postponed... **and never happens.**

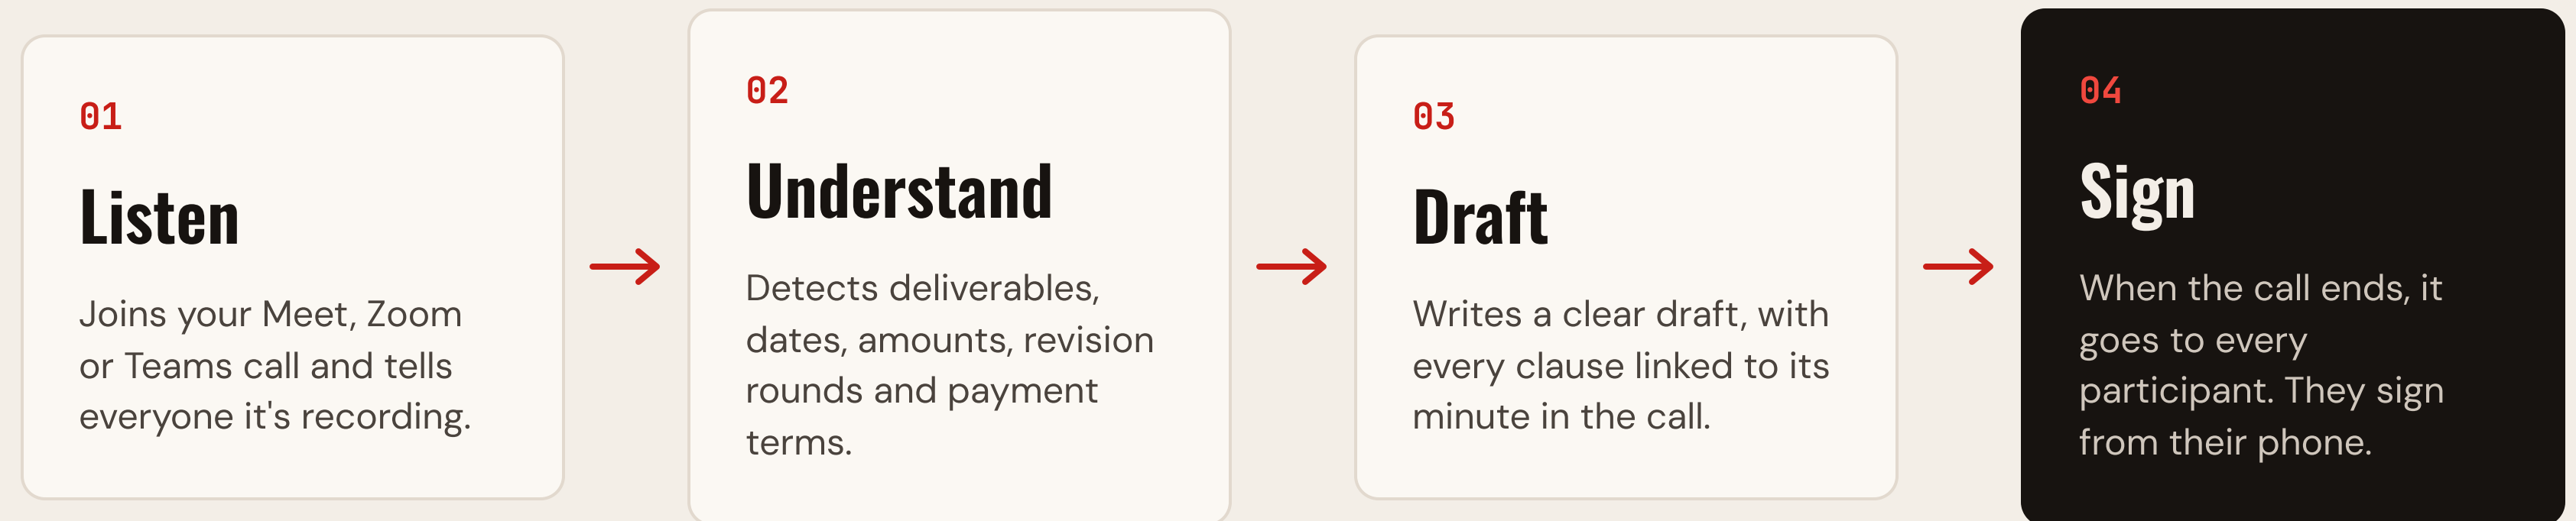

THE SOLUTION

**YOU TALK.
ROCKSIGN WRITES.
EVERYONE SIGNS.**

RockSign listens to your client calls and, when you hang up, sends every participant a draft agreement with deliverables, dates, amounts and terms, ready to sign.

HOW IT WORKS

From call to signature, without writing a line.

Optional review: the freelancer can tweak the draft before it goes out.

THE DRAFT

Every clause comes with its proof.

Tap a line and hear the moment in the call when it was agreed. Nobody has to trust anybody's memory.

SERVICES AGREEMENT • DRAFT

Lucy Parker (designer) and Northside Studio

Deliverables: landing page redesign + 3 social media pieces

▶ 00:16

Deadline: Friday, October 23

▶ 00:29

Fee: US\$ 1,200 · 50% upfront

▶ 00:32

Revisions: up to 2 rounds

▶ 00:48

SIGN

Illustrative example: names and amounts are fictional.

WHY NOW

Three years ago, this couldn't be built.

Voice is now text

Automatic transcription in English and Spanish is accurate and cheap.

AI understands deals

Pulling deliverables, dates and amounts out of a free-form chat is now feasible.

E-signatures are valid

Legally recognized in the US (ESIGN Act), the EU (eIDAS) and Argentina (Law 25,506).

MARKET

Every freelancer closes dozens of deals a year.

TAM

[] M

Freelancers worldwide who close work over video calls.

SAM

[] M

English- and Spanish-speaking freelancers in creative and tech services.

SOM · 3 years

[] K

Paying users reachable through client-invite distribution.

BUSINESS MODEL

The freelancer pays. The client signs for free.

Free

US\$ 0

[N] agreements per month, RockSign-branded.

Pro

[US\$ _] / month

Unlimited agreements, custom templates, delivery and payment reminders.

Studio

[US\$ _] / seat

Teams and agencies: own branding, roles and integrations.

Built-in growth: every agreement sent introduces RockSign to a client who also hires freelancers.

COMPETITION

Everyone solves one piece. Nobody connects the call to the signature.

	Listens to the call	Extracts the deal	Drafts the agreement	Sends for signature
Notetakers (Otter, Fireflies)	Yes	Summary	No	No
E-sign (DocuSign, PandaDoc)	No	No	Manual	Yes
Freelance ops (Bonsai, HoneyBook)	No	No	Template	Yes
RockSign	Yes	Yes	Automatic	Yes

ROADMAP

From the first signed agreement to a network of trust.

PHASE 1 • [Q_ 2027]

MVP

Upload the recording or the call link and get a draft ready to sign.

PHASE 2 • [Q_ 2027]

Live

Bot for Zoom, Meet and Teams.
Templates by trade: design, dev, video.

PHASE 3 • [Q_ 2028]

Follow-through

Delivery and payment reminders tied to the agreement. Invoicing integrations.

TEAM

The team

WHAT'S SAID **GETS SIGNED.**

We're raising [US\$ __] to [goal: launch the MVP and reach __ paying users].
